Medical Technology

Power Your Surgery

IntoCare™ Powered Circular Stapler

An ergonomic, smart, intuitive and intelligent circular stapler with E-stapling technology

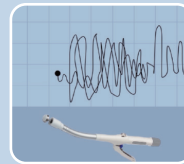

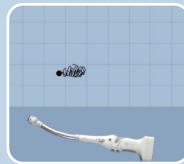

Program Control
Optimized Structural Design
Power-driven Unified Operation

- Power Driven System contributes to great outcomes with minimal effort
- Intelligent Program Control guarantees safer surgery
- Optimized Structure boosts confidence in anastomosis
- Standardized Platform offers an ergonomic, intuitive, and economic solution

IntoCare™ Powered Circular Stapler

POWERED OPERATION

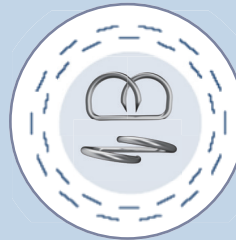

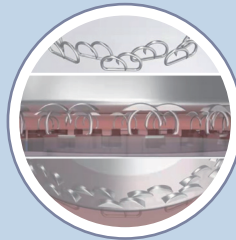

POWERED CLOSING: 88.9% less distal movement to avoid tissue trauma

POWERED FIRING: 95% less firing force, 99% less distal movement to improve staple line integrity

POWERED OPENING: jaw automatically opens optimal distance after firing to avoid damage to anastomotic site

OPTIMIZED STRUCTURE

LARGER lumen size to avoid risk of stricture

2 MORE staples to reduce leakage

CROSS B STAPLE FORMATION to provide larger anastomotic area

AIRTIGHT SHAFT to preserve pneumoperitoneum

VERSATILE SELECTION

Accommodate a variety of applications

- Straight, standard, extra long available
- 5 lumen sizes available

INTELLIGENT PROGRAM CONTROL

Reduce mental stress

- Intelligent identification of different staplers within the platform
- Automatic self-check
- 15s pre-compression timer
- Pre-set 2s firing compression
- Jaw auto-opening 4mm after firing
- Smart identification of empty cartridge
- Over-compression protection
- Firing protection
- Visual feedback from LED indicator
